Workshop on Promoting Partnerships on Renewable Energy
November 14, 2011

www.acpbusinessclimate.org
Martin Zwanenburg

Martin is a Dutch development economist active since 1978 mainly as a project economist involved in Cost-Benefit Analysis and feasibility studies. He has been involved in PDD development for CDM projects - for small hydro and biomass - and in the evaluation of proposals for the EU ACP EFU (Energy Facility Unit).
For more than five years, Meghan has been advising companies and government agencies on biofuel investment and policy in Africa. In 2008, Meghan founded “Partners for Euro-African Green Energy,” a trade association that links African biofuel producers with the European market.
Since 1995 he is fully dedicated to the transfer of Renewable Energy Technologies to South Africa and to Research, Development and Implementation of New Energy projects.

He is a member of African Wind Energy Association, President, South African Wind Energy Association, Founder member, SA German Chamber of Commerce.
Some of Mahama’s achievements include the creation of the West African Gas Pipeline Project, the founding of the West African Power Pool and the regional electricity regulation authority. Moreover he was involved in the establishment of the regional program on access to energy services and the creation of ECREEE.
Sue Canney Davison

Sue often focuses on large scale project launch and realignment, diversity, sustainable resource use, and innovation. Sue also manages the DEG Jatropha Support Programme in Eastern Africa and she is also an affiliate director of a new company called African bio crops.

Director PIPAL (Kenya)
The United Nations Industrial Development Organization (UNIDO) is a specialized agency of the United Nations, aiming to promote and accelerate sustainable industrial development in developing countries.

Christophe Yvetot, Head of UNIDO Brussels Office
Paul van Aalst

Paul is leading the development of investment instruments and partnerships in Europe, Asia, Africa and Latin America. His primary focus is investor relations and developing investment products to finance E+Co’s investment activities.

Director of E+Co Europe

e+Co is an investment company for clean energy enterprises in developing countries. Since 1995 E+Co has invested in 200 enterprises, bringing access to clean and affordable energy to close to 8 million people.
Joseph Nganga

Joseph is the Founder and C.E.O of Renewable Energy Ventures (K) Ltd., a renewable energy and energy efficiency project development, consulting and advisory firm headquartered in Kenya, with an office the Washington DC Metro area.
